PROJECT NUMBER FMIO413HAU		SITE NAME and LOCATION Hi-Mill Mfg. Highland Michigan		
DISCUSSION <p> I contacted Judy McCully to determine if the wetland area WNW of Hi-Mill (which would receive runoff from the site) was part of the Highland State Recreation Area and if it was used for recreation. Mrs. McCully stated that the area bounded by Harvey Lake Road on the West, Wardlow Rd on the north, Waterbury Rd on the east and Grubb Rd (now called Livingston Rd) on the south was all part of the state recreation area. (See Ref 8 topographic map). There are, she stated a couple privately owned areas in that section. Hi-Mill falls in that area. </p> <p style="text-align: center;">(Cont)</p>

DISCUSSION

I asked if the specific area had any recreational uses. Mrs McCully stated that the lakes in that area were used for fishing and small boats and the whole wetland area is used for open hunting.
